

If you are here to do research - you are welcome here.

If you are here to use one of the computer programs for research - you are welcome here.

If you are here to study - you are welcome here.

If you are here to do school work on a computer - you are welcome here.

But...

If you want to talk - you need to go someplace else.

If you want to socialize with your friends - you need to go someplace else.

If you want to "play on the computer" - you need to go someplace else.

This is the one place in the school where quiet will be guaranteed. Thank you for your co-operation!
